27 DELISTING

27.1 Cash Alternative

MOL 1 will provide a cash alternative to SDS holders who do not wish to receive and hold these equity shares in the Resulting Company and the Transferee Company which they are entitled to as part of the Scheme by allowing such SDS holders to elect to dispose all or part of the aforesaid equity shares in the open market upon listing of the same on the BSE and NSE. The net sales proceeds (after the deduction of costs and expenses) shall be distributed to the Depository Bank for further distribution to the Cash Electors (as defined below) in the same proportion as their entitlements (“**Disposal Proceeds**”).

27.2 Election Form and Tax Documents

The relevant form of election of Disposal Proceeds will be sent to SDS holders (“**Election Form**”).

In case of the SDS holders electing to receive the Disposal Proceeds, they must deliver to MOL 1 the following documents (collectively “**Tax Documents**”) together with the Election Form:

- (i) Self Declaration regarding No Permanent Establishment or Business Connection in India;
- (ii) Certificate of Residence ('CoR') issued by the Inland Revenue Authority of Singapore ('IRAS');
- (iii) Form No. 10F (Self Declaration Form) and

- (iv) Such other form as notified by Indian tax authority time to time (each, a "Cash Elector"). Cash Electors who fail to deliver the Tax Documents will not receive any Disposal Proceeds and will instead receive the equity shares in the Resulting Company and the Transferee Company which they are entitled to as part of the Scheme.

27.3 Cash Alternative Minimum Amount

In the event the net Disposal Proceeds for Cash Electors after deduction of the relevant withholding tax payable in respect of the Disposal Proceeds ("Relevant Withholding Tax") is less than the Cash Alternative Minimum Amount per SDS, the Resulting Company and the Transferee Company will undertake to compensate the Cash Electors for any shortfall. None of MOL 1, the Resulting Company and the Transferee Company will be liable for any such top up where the net Disposal Proceeds for Cash Electors after deduction of the Relevant Withholding Tax is equal to or more than the Cash Alternative Minimum Amount.

- 27.4 An application was made to seek approval from SGX-ST to delist MOL 1 from the official list of the SGX-ST.

- B. Summary of Report recommending Share Entitlement Ratio for the proposed demerger of Agrochemical and Pigment Undertaking of MOL-1 into MOL-2 and Share Exchange Ratio for the proposed merger of Remaining Business Undertaking of MOL-1 into MFL including basis of valuation and Fairness opinion.**

- (I) The report confirming the proposed Share Entitlement Ratio of Equity Shares for the proposed demerger of Agrochemical and Pigment Undertaking of MOL 1 in to MOL 2 and the report confirming the proposed Share Exchange Ratio for merger of Remaining Business Undertaking of MOL 1 in to MFL, being just and reasonable has been provided by Mr. Jigar Shah, Independent Chartered Accountant, as well as Registered Valuer.

For Part B of the Scheme, viz. De-merger of Agrochemical and Pigment Undertaking of MOL-1, the entire undertaking is proposed to be transferred at the Book Value. No relative valuation of Demerged Undertaking of MOL-1 and of MOL-2 is required to be undertaken as all the shareholders of MOL-1 would also become shareholders of MOL-2, and their percentage shareholding in MOL-1 would mirror their percentage shareholding in MOL-2 and therefore upon the Scheme becoming effective, the business of the De-merged Undertaking of MOL- 1 would continue to be owned by the shareholders of MOL-1 in the same proportion as their shareholdings in MOL-1, as on the relevant date.

For Part D of the Scheme, viz. Amalgamation of the residue undertaking of MOL-1 with MFL, the said valuer has considered the optional methods of valuation and has adopted the most appropriate method. The Valuer has given reasoned justification for adopting the appropriate method for comparable companies analysis and arrived at the fair and reasonable Share Entitlement Ratio.

It has also been noted that upon scheme being effective, the Equity Shares issued by both the Resulting Company viz. MOL-2 as well as the Transferee Company viz. MFL are proposed to be listed on the concerned stock exchanges.

- (ii) **Fairness Opinion obtained from M/s. Vivro Financial Services Private Limited, Category-1, Merchant Banker:**

The Merchant Banker is of the opinion that the Share Entitlement Ratio and Share Exchange Ratio considered for the purpose of the Scheme is fair to the equity shareholders of Meghmani Organics Limited

- i. The Valuation Report recommending Share Entitlement Ratio and Share Exchange Ratio and Fairness Opinion are available for inspection at the Registered office of MOL-1.
- ii. A copy of the Valuation Report recommending Share Entitlement Ratio and Share Exchange Ratio and Fairness Opinion are enclosed to this notice as **Annexure 3** and **Annexure 4** respectively.

- C. The proposed Scheme was placed before the Audit Committee of MOL-1 as well as MFL at their respective meetings held on 29th January 2020. The Audit Committees recommended the Scheme to the Board of Directors of MOL-1 as well as MFL, being the subsidiary of MOL-1 for their consideration after inter alia taking into account the following:
- i. The Valuation Report recommending Share Entitlement Ratio and Share Exchange Ratio dated 28th January 2020, issued by Mr. Jigar Shah, Independent Chartered Accountant, as well as Registered Valuer, for issue of shares pursuant to the Scheme;
 - ii. The Fairness Opinion dated 28th January 2020 issued by M/s. Vivro Financial Services Private Limited, Category-1, Merchant Banker, on the fairness of the report on recommendations of Share Entitlement Ratio and Share Exchange Ratio.
- D. Details of approvals, sanctions or no-objection(s), if any, from regulatory or any other governmental authorities required, received or pending for the proposed Scheme:
- i. NSE has been selected as the designated stock exchange by the Applicant Demerged Company/Transferor Company for the purpose of coordinating with the SEBI, pursuant to SEBI circular No. CFD/DIL3/CIR/2017/21 dated March 10, 2017 and amendment thereof (the 'SEBI Circular').
 - ii. MOL-1 has received, in terms of Regulation 37 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, Observation Letters dated 4th September 2020 from NSE as well as the BSE giving their no-objection to the Scheme. Copies of the said letters are enclosed as **Annexure 5**.
 - iii. As required by the SEBI Circular, MOL -1 Limited has filed the Nil Complaints Reports dated 18th May, 2020 with National Stock Exchange of India Limited and 13th May, 2020 with the BSE Limited. After filing of the Complaint Reports, MOL-1 has not received any complaints. Copy of the said reports are enclosed as **Annexure 6**.
 - iv. The SGX-ST vide its letter dated 6th September 2019 has granted in-principle approval to the delisting of SDS listed on the SGX-ST pursuant to the Scheme. A copy of the said letter is enclosed as **Annexure 7**.
 - v. All the Applicant Companies or any of them would obtain such necessary approvals/sanction/no objection(s) from the regulatory or other governmental authorities in respect of the Scheme in accordance with the law, if required.
 - vi. The application along with the requisite annexures thereto were filed by the Companies with NCLT on 09 October, 2020.
 - vii. Further, it is confirmed that the copy of the draft Scheme has been filed with the Registrar of Companies, Ahmedabad by MOL-1, MOL-2 as well as MFL.

- viii. In compliance with the requirement of Section 230(5) of the Companies Act, 2013 and Rule 6 of the Companies (Compromises, Arrangements and Amalgamations) Rules, 2016, a notice in the prescribed form and seeking approvals, sanctions or no-objections shall be served to the concerned regulatory and government authorities for the purpose of the proposed Scheme.

APPROACH & METHODOLOGY

Step 1 - Share entitlement Ratio for Demerger of Pigment and Agrochemical Undertakings of MOL 1 into MOL 2

As per the proposed scheme of arrangement, in consideration of the transfer and vesting of Pigment and Agrochemical Business Undertakings of MOL 1 into MOL 2, the MOL 2 shall issue and allot equity shares to the equity shareholders of MOL 1 based on the ratio of allotment of shares.

As per the Scheme of Arrangement ('Scheme'), the Pigment and Agrochemical Undertaking of MOL 1 is proposed to demerge into MOL 2. Once the scheme is implemented, all the shareholders of MOL 1 as on the record date as defined in the draft scheme would also become shareholders of MOL 2 and the shareholding in the MOL 2 would mirror their shareholding in MOL 1.

We further understand that as an effect of demerger, each shareholder of MOL 1 would become owner of shares in two companies instead of one. Post Demerger, the percentage holding of a shareholder in MOL 1 would remain unchanged from the proportion of capital held by such shareholder in MOL 1.

The Management of MOL 1 has further indicated that the shareholding of MOL 2 pursuant to the proposed Demerger of Pigment and Agrochemical Undertakings into MOL 2 would be, effectively, same as the shareholding of MOL 1 (pre-demerger) as the new shares of MOL 2 would be issued to the shareholder of MOL 1 in proportion to their shareholding in

MOL 1 (Pre-demerger). Thus, we understand that the interest of the shareholders of MOL 1 will effectively remain unchanged and therefore from that perspective shareholders interest would not be prejudicially affected. The Scheme does not envisage dilution of the holding of any one or more of shareholders as a result of operation of the scheme.

Recommendation of Ratio of Entitlement of Equity Shares for the Proposed Demerger

On the basis of the foregoing, any share entitlement ratio can be considered for the above demerger as the proportionate shareholding of any shareholder would not vary. Considering the desired capital structure of MOL 2, the Management has proposed a share entitlement ratio of 1 (One) fully paid equity share of MOL 2 of face value of INR 1 each, in exchange of every 1 (One) fully paid equity share of MOL 1 of face value of INR 1 each in the event of Demerger of Pigment and Agrochemical Business Undertakings of MOL 1 into MOL 2 is proposed as follows:

1 (One) fully paid equity share of face value of INR 1 (Rupee One) each of MOL 2 for every 1 (One) fully paid equity share of face value of INR 1 (Rupee One) each held in MOL 1.

Step 2 Share Exchange Ratios for Merger of Remaining Business Undertaking of MOL into MFL as on Record Date

The following are commonly used and accepted methods for determining the value of the equity shares of a company/business:

1. Market Price Method
2. Comparable Companies Quoted Multiples method or Comparable Companies Transaction Multiples
3. Discounted Cash Flows method
4. Net Asset Value method

It should be understood that the valuation of any company or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and General business and economic conditions, many of which are beyond the control of the companies. Further, this valuation

will fluctuate with lapse of time, changes in prevailing market conditions, the conditions and prospects financial and otherwise, of the Companies, and other factors which generally influence the valuation of companies and their assets.

The Application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purpose, it cannot be too strongly emphasized that a Valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona fide manner based on our previous experience of assignments of a similar nature.

MFL is an Operating company and has significant businesses while MOL 1 after Step 1 holds significant investment in MFL and having trading activities in it. In view of holding-cum Operating nature of both Companies, the following approach was considered relevant for valuing MFL and MOL 1.

- Market Approach
- Sum of parts Approach – Value arrived for Investments of MOL 1 into MFL under market approach using CCM/ CTM Method and Value arrived for Remaining Business Undertakings of MOL 1 using Discounted Cash Flow Method were aggregated. Further, adjustments were made for debt, cash and cash equivalents, surplus assets, if any, Key events and costs/ proceeds relating thereto, etc as deemed appropriate. The Equity value of the respective businesses/ Investments so arrived was then divided by the diluted number of equity shares of the Companies to compute its value per share.

The following paragraphs discuss different valuation methods and their application for valuing the companies, their businesses/ investments.

Market Price (MP) Method

The Market price of an equity share as quoted on a stock exchange is normally considered as the value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper index of the fair value of the share especially where the market values are fluctuating in a volatile capital market. Further, in the case of a merger, where there is a question of

evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of comparable standard.

In the present case, equity shares of MOL 1 are listed on BSE and NSE. We have segregated market price of MOL 1 between its two undertakings considering fair value of investment in MFL post demerger as per Step 1 and value of Remaining Business Undertaking. However, other company i.e. MFL is not listed on any exchanges. Hence, we have not considered this method into consideration.

Comparable Companies' Quoted Multiple (CCM) Method

Under this method, Value of the equity shares of a company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuation of listed companies. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

For valuing various businesses/investment of these companies, we have considered the earnings and asset multiples of comparable listed companies, with subject company / business specific adjustment, for the purpose of our valuation analysis.

Comparable Companies' Transaction Multiple (CTM) Method

Under this method, value of the equity shares of a company / business is arrived at by using multiple derived from valuation in comparable companies, as manifest through transaction Valuations. Relevant multiples need to be chosen carefully and adjusted differences between the circumstances.

Comparable company analysis (also called "trading multiples" or "peer group analysis" or "equity comps" or "public market multiples") is a relative valuation method in which you compare the current value of a business to other similar businesses by looking at trading multiples like P/E, EV/EBITDA, or other ratios. Multiples of EBITDA are the most common valuation method.

The "comps" valuation method provides an observable value for the business, based on what companies are currently worth. Comps are the most widely used approach, as they are easy to calculate and always current.

For valuing various business/investments of these companies, we have considered the comparable transactions, with subject company/business specific adjustment, for the purpose of our valuation analysis. Wherever and if deemed appropriate, industry specific benchmark have been in the analysis.

In the present case, MFL is operating company in case of merger between MFL and Remaining Business Undertaking of MOL 1. Hence, we have valued MFL using this method. We have considered PE Multiples and EV/EBIDTA Multiples and assigned 50% weightage to each method to arrive weighted average value of MFL using this method.

Discounted Cash Flows (DCF) Method

Under the DCF method the project free cash flows to the equity shareholders are discounted at the cost of equity. The sum of the discounted value of such free cash flow is the value of the firm.

Using the DCF analysis involves determining the following:

Estimating future free cash flows:

Free cash flows are the cash flows expected to be generated by the company that are available to the providers of the company's equity capital.

Appropriate discount rate to be applied to cash flows i.e. the cost of equity:

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to the equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the equity capital provider expects to earn on other investments of equivalent risk.

We have used DCF Method of valuation for valuing Remaining Business Undertaking of MOL 1.

Net Asset Value (NAV) Methodology

The asset based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e. it does not meet the "going concern" criteria or in case where the assets base dominate earnings capability. Hence, we have not used this method of valuation for valuing companies.

Share Exchange Ratio

The share exchange ratio has been arrived at on the basis of an equity valuation of the companies. The share exchange ratio is based on the various methodology explained herein earlier and various qualitative factors relevant to each company and the business dynamics and growth potentials of the businesses of the companies, having regard to information base, key underlying assumptions and limitations.

Valuer, as considered appropriate, have independently applied methodologies discussed above and arrived at their assessment of value per share of the companies. To arrive at the consensus on the share exchange ratio for the step 2, suitable averaging and rounding off in the values arrived at by the valuer have been done.

Conclusion

In light of the above, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove:

Step 1 Share Entitlement Ratio for Demerger of Pigment and Agrochemical Undertakings of MOL 1 into MOL 2.

Further, based on the aforementioned, and considering that all the shareholders of MOL 1 are and shall, upon demerger, be the ultimate beneficial economic owners of MOL 2 in the proposed share Entitlement Ratio. The proposed share Entitlement Ratio of 1 (One) equity shares of MOL 2 (of INR 1/- each fully paid up) for every 1 (One) equity shares of the MOL 1 (of INR 1/- each fully paid up) for the Demerger of Pigment and Agrochemical Undertakings of MOL 1 is fair.

The Computation of fair Exchange Ratio is attached as per Annexure I

Step 2 Share Entitlement Ratio for Merger of Remaining Business Undertaking of MOL 1 into MFL.

In view of application of relevant approach and methodology and arriving fair value of both Companies viz. MOL 1 and MFL, we recommend the stock exchange ratio of 94 (Ninety Four) equity shares of INR 10/- each fully paid up in the share capital of MFL to issue for every 1,000 (One Thousand) equity shares of INR 1/- each held in the shareholder of MOL 1.

ANNEXURE I

Computation of Fair Share Exchange Ratio
De-merger of MOL 1 into MOL 2

As per the Scheme of Arrangement ('Scheme'), the Pigment and Agrochemical Undertaking of MOL 1 is proposed to demerge into MOL 2. Once the scheme is implemented, all the shareholders of MOL 1 would also become shareholders of MOL 2 and the shareholding in the MOL 2 would mirror their shareholding in MOL 1. Hence, no relative valuation of the two entities is required to be undertaken. Hence, we have not carried out valuation of these entities under generally accepted valuation approaches as below:

Valuation Approach	MOL 1		MOL 2	
	Value Per Share	Weight	Value Per Share	Weight
Assets Approach	NA	0%	NA	0%
Income Approach	NA	0%	NA	0%
Market Approach	NA	0%	NA	0%
Relative Value per Share	NA	0%	NA	0%
Exchange Ratio (rounded off)			1	

Note: Face Value INR 1 per share

All the shareholders of MOL1 would become the shareholders of MOL2 and the shareholding in MOL2 would only mirror their shareholding in MOL1. Hence, as there is no need to calculate a ratio, we have not used any of the above method of valuation.

RATIO:

1 (One) equity share of MOL 2 of face value of INR 1 each fully paid up for every 1 (One) equity share of MOL 1 of face value of INR 1 each fully paid up.

We understand that the interest of the shareholders in MOL 1 will effectively remain unchanged and therefore from that perspective shareholders interest would not prejudicially affected. The demerger under this scheme does not envisage dilution of the holding of any one or more of shareholders as a result of operation of the Scheme.

Note: MOL1 - Face Value INR 1 per equity share

Note 1 – On demerger post Step 1, MOL 1 will have two business activities i.e. Trading Business and Investment in MFL. We have used Sum-Of-Parts valuation to value its Trading Business and Investments in MFL with suitable approaches. We have valued Comparable Companies Quoted Multiple ('CCM') Method using Market Approach for valuation of MOL1 investment into MFL and used Discounted Cash Flow Method ('DCF') under Income Approach to value its Trading Business.

The value of MOL1 is derived from the (i) Investment in MFL & (ii) Trading Business. For the investment in MFL, we have used the Market Approach and for the trading business, we have used the Income Approach. Hence, while we have used both the Market Approach as well as the Income Approach to arrive at the value, we have not considered the Asset Approach as it is only historic in nature and does not adequately represent the value.

Note 2 – We have used valued Comparable Companies Quoted Multiple ('CCM') Method using Market Approach for valuation of MFL.

We have used the Comparable Companies Method (Market Approach) to value MFL, as the business of MFL is of a nature wherein comparable companies value are truly representative of the fair value. We have not used the Income Approach as the details for the same were not possible to ascertain and we have not used the Asset Approach as it is only historic in nature and does not adequately represent the value.
