

Environment, Health, Safety and Security Policy

Meghmani Organics (Agro Division) is committed to manufacture, handle, store and distribute chemicals in safe and secure manner that shall protect the environment and safeguard employees, stakeholders and community.

Commitment of achieving excellence in Environment, Health, Safety & Security performance shall be achieved by:

- Providing, maintaining and upgrading facilities, operations, working conditions and systems that are safe and secure for community, employees, contractors and environment.
- Providing necessary resources, information, training and motivating employees for performing operations and activities effectively and responsibly to prevent untoward incidents, protect environment and conserve natural resources.
- Integrating environment, occupational safety, process safety, health & security requirements in planning and decision making process of business activities.
- Complying with applicable Environment, Safety, Health and Security regulations and adopting applicable standards and codes.
- Assessing risk of processes and services to deploy appropriate controls for risk mitigation and conducting periodical review of risks, to maintain its level in acceptable limit.
- Making Environment Health, Safety and Security performance as an integral part of individual & business performance report.
- Disseminating necessary information and knowledge to employees, transporters, end-users, customers and community about hazards, risk and mitigation measures associated with products, processes and waste materials.
- Assigning distinctive responsibilities of employees, contractors, visitors, transporters and other stakeholders to ensure compliance.
- Designing and maintaining emergency response plan, procedures, control measures and business continuity capabilities.
- Informing, Interacting and co-operating actively with external and internal key stakeholders regarding periodical performance and progress for sustainability.

“This policy shall be applicable for all functions and departments of MOL’s Agro business, located in India”
