

SUSTAINABILITY POLICY

Meghmani Organics Limited is committed to integrate environmental, social and ethical governance principles into its business for improving the quality of life of the communities we serve and enhancing stakeholder value. We are committed to operating our business with integrity, supporting environmental and social responsibility, and building a diverse and inclusive workplace where our employees can thrive.

Commitment towards sustainability will be achieved by:

- Incorporating sustainability, ESG (environmental, social and governance) requirements in all business decisions and key work processes, with the aim of creating value, mitigating future risks and maximizing opportunities.
- Developing code of conducts, policies, actions and monitoring mechanisms of results for continual improvement in ESG requirements.
- Maintaining ethics and transparency in governance practices, adheres to requirements laid in good governance standards.
- Fostering development of learning management capacity on ESG topics.
- Establishing a governance structure to oversee our sustainability commitments, periodical review and monitoring of ESG indicators.
- Adhering to principles of product stewardship by enhancing health, safety, environmental and social impacts of products and services.
- Providing working conditions that are clean, safe, healthy and fair to employees, business associates and stakeholders.
- Strive to be neighbours of choice in the communities in which we operate and contribute to their equitable and inclusive development.
- Implement and integrate management system standards to strengthen business sustainability throughout the supply chain.
- Identifying relevant material issues and develop comprehensive sustainability strategies and adapt action plans to address them under the guidance of board.
- Communicating progress on ESG principles to stakeholders through performance report in line with reporting framework.

Mr. Ankit Patel
Chairman & Managing Director

Sustainability (Environmental, Social & Governance) Policy

1. Purpose

The purpose of the Sustainability (Environmental, Social and Governance) Policy (the "Sustainability Policy") is to demonstrate organisations commitment and establish framework to address environmental, social and governance ("ESG") matters of Meghmani Organics Limited.

2. Scope & Applicability

This Sustainability Policy applies to the all employees of the Meghmani Organics including board of directors and all relevant stakeholders. Different business units within the Company are expected to use this policy as guidance to assess ESG and sustainability considerations in their respective decision-making processes.

This document outlines our commitments but will not include metrics of progress. ESG metrics will be reported in other forms of disclosure i.e. BRSR report i.e. Business Report and Sustainability Report (BRSR reports)

3. Definitions i.e. descriptions of Environmental, Social, and Governance:

The Environmental component of ESG refers to how our business practices affect the environment and vice versa. The scope of environment includes energy consumption and use of renewable energy, consumption of resources, waste disposal, water management, and climate risk. Our policies and programs strive to achieve sustainable operations and minimize impact on the planet.

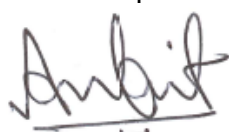

The Social component of ESG refers to how our organization's operations affect our people, our customers, and the communities where we live and work. Our social policies and practices strive to build a healthy corporate culture and positive relationships with our stakeholders.

The Governance component of ESG refers to how we operate, govern, and manage risk in a way that promotes sustainability and the longevity of the organization. Our governance policies and practices outline the way in which we make decisions, set business strategy and goals, comply with applicable laws and regulations, and communicate our progress.

This Sustainability Policy outlines our company-wide activities and commitments for each ESG focus area. We see sustainability as a business opportunity, a risk mitigation measure and an essential aspect of our core values.

4. Governance arrangements for sustainability Policy

Sustainability starts with our Board of Director and its gets channelized through CEO of the company. Board demands improvements in business practices and adherence to

Anbil

The Committee will also responsible for prioritizing initiatives, develop internal capabilities, and drive/monitor implementation.

The Committee shall meet on a quarterly basis and reports to the CEO and thereafter he shall discuss sustainability issues in board meeting, if needed.

The Company shall provide face-to-face or online training, development activities, and workshops on various topics pertinent to our employees and that are linked with sustainability.

5. Principles and Philosophy

The Company is committed to incorporating ESG requirements into how we manage our business. The Company is committed to assessing the environmental, social, and governance factors that impact our business, managing the risks associated with such factors, and striving to improve the way the Company operates its business in accordance with these factors. This includes identifying opportunities to reduce the Company's environmental footprint, enhancing the diversity of the organization, deepening our employee's engagement and development, and increasing transparency in our supply chain, having a positive impact on the communities in which the Company operates, and operating with a strong culture of compliance. However, the Company recognizes that there is not a one-size-fits-all approach to ESG integration; rather, the Company strives to employ best practices and evaluate ESG factors in our decision-making.

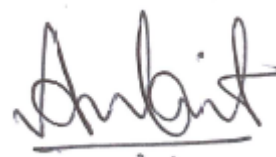

The following topics are being considered as sustainability requirements or ESG focus areas for the company; there shall be continual improvement actions for each point listed below. ESG is continuously evolving; therefore the list below may increase and change with time to sustain business,
